DETAILED ACTION

1. Currently, claims 41, 42, and 53 are pending and under consideration in this application. These claims were allowed in the action mailed on February 4, 2005. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission (an Information Disclosure Statement) filed on February 28, 2005 has been entered.

2. Claims 41, 42, and 53 are allowed.

3. The claims are found allowable for the reasons indicated in the action mailed February 4, 2005. In particular, while the prior art teaches the use of materials comprising crimped yarns in biological devices, such devices lack an outer surface, and are for the purpose of vascular or other tissue grafts. See e.g., WO 91/19464, abstract. Because the prior art does not teach or suggest the use of crimped yarns in devices such as those claimed in the present application, or described in the Cerami (WO 99/44583), Li (U.S. 6,303,136), or Sternick (WO 85/03635) references, the claims are allowed.

Information Disclosure Statement

4. The information disclosure statement (IDS) submitted on February 28, 2005 is in compliance with the provisions of 37 CFR 1.97. Accordingly, the information disclosure statement has been considered by the examiner.

Art Unit: 1648

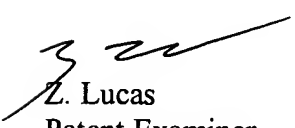

The Cerami et al. reference (U.S. 2003/0118630) cited in the IDS is noted. While this reference teaches devices such as those claimed by the present application, the reference is not considered prior art to the present application in view of the current application's claim of priority to earlier U.S. provisional application 60/290,542.

Conclusion

5. Claims 41, 42, and 53 are allowed.
6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Zachariah Lucas whose telephone number is 571-272-0905. The examiner can normally be reached on Monday-Friday, 8 am to 4:30 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, James Housel can be reached on 571-272-0902. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
